Necessary arrangements have been completed to provide the desired information to your office on the various TITAN III configurations. To facilitate communications and, at the same time, maintain proper security for your activities, a direct point of contact for you on TITAN III matters has been established in SA FSP.

Captain Frank B. Gorman, USN, SA FSP's Deputy Director for Advanced Plans, has been designated as your point of contact for TITAN III matters. He will secure available plans, reports, information, etc., and arrange, if necessary, any meetings with the Project Office or contractor team. Captain Gorman will communicate directly with you in the near future.

The above arrangement should be viewed in the context of obtaining available information and/or written material. If you should have a need for special studies or analyses by the TITAN III SPO, please pass them to me and I will direct the necessary actions.

With regard to the Mark 8 RV design, your needs have been made known to General Greer. Please contact him with the specifics, and he will insure that the desired information is made available to you.

Sincerely,
